INTRO

GRAND POWER is a firearms manufacturer based in Slovakia - heart of Europe. With more than 20 years on the market and over 60 countries in its portfolio, GP firearms provide excellent reliability, robustness and top-notch craftsmanship and materials at competitive prices.

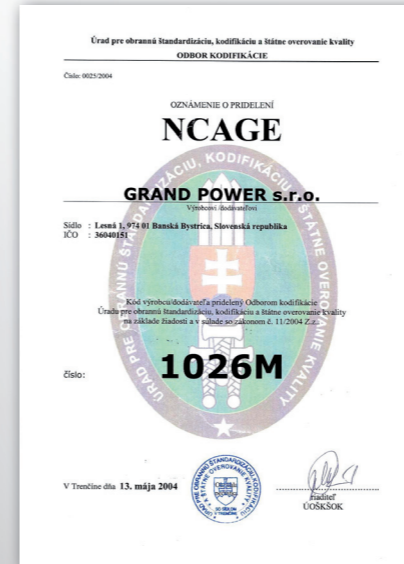

All of our firearms are produced in our two facilities in the very centre of Slovakia – Banská Bystrica and Kremnické Bane. GRAND POWER firearms are made utilizing state of the art CNC machines, including robot-operated CNC hubs, our own QPQ treatment for steel parts and hard anodizing facility for aluminium parts, and are subjected to extensive multi-step quality control.

MILITARY PRODUCTION

GRAND POWER NATO supplier code – NCAGE is 1026M and most of our military production is listed in NATO stock catalogues under our own NSN numbers.

From pistols to heavy machine guns, GRAND POWER delivers top quality products with passion for precision!

The GP M4 is a robust, reliable, direct impingement operated, select fire rifle chambered in popular 5,56×45 NATO calibre.

M4 platform offers wide range of accessories and significant modularity options. Robust and reliable design made of top-quality materials, using most advanced technologies and state of the art tools. Popular classic features are accompanied by modern additions, such as free-floated handguard with M-LOK slots and accessory rails for accessories. GRAND POWER proprietary grip offers maximum comfort and secure grip in any conditions. Multi-position collapsible stock offers length of pull adjustments. Optional GP muzzle device increases controllability of the weapon, especially in fully automatic mode.

GP M4 rifle is compatible with regular M4/AR-15 magazines and is equipped with case deflector, dust cover and forward assist. Version with ambidextrous controls is also available on demand. The M4 is a standard direct impingement operated rifle available in several length variants, with barrel lengths of 11", 14,5", 16,5", 18" and 20".

Further accessories, such as suppressors, bayonets etc are available upon request. All specifications are approximate and can be subject to change unless specified in contract or purchase order.

Barrel length:	11"/14,5"/16,5"
Overall length (11"):	719/802 mm
Width:	69 mm
Weight (11"):	2850 g
Height:	187 mm

GP M4

The GP M4M is a short stroke piston operated variant to our M4 model for those who prefer piston driven rifles. The M4M is also chambered in popular 5,56×45 NATO calibre.

Weight (11"):	2950 g
Height:	187 mm

GP M4M

GP Tg vz. 16 is a heavy machine gun chambered in either 12,7x108 russian or .50 BMG caliber, based on the DShKM design. now available as a brand new, modernized and advanced version produced by GRAND POWER in Slovak republic (EU) and offered as a portable or vehicle-mounted infantry support weapon.

The DShKM is a gas operated, belt fed, air cooled machine gun that fires from an open bolt and in automatic mode only. The gas piston and chamber are located below the barrel; the gas piston is of the long stroke type and is attached to the bolt carrier. The gas chamber is fitted with a gas regulator, which requires a special wrench to make adjustments. The rear of the receiver houses two spring buffers, one for the bolt and one for the bolt carrier. The heavy barrel is finned for better cooling, and is fitted with a large muzzle brake. The barrel can be detached from the weapon and replaced quite fast and easily.

The machine gun is chambered for 12,7x108mm or .50 BMG ammunition and primarily designated for defeating the lightly armoured targets, fire installations and living force of enemy at the distance up to 1.500 – 2.000 m as well as for the defeat of slow-speed low-altitude air targets (helicopters, aircrafts, UAVs) at slant distances of up to 1.500 m.

Caliber:	12,7x108/ .50 BMG
Barrel length:	1070 mm
Overall length:	1625 mm
Firing rate:	600 rpm
Range:	2000 m
Weight w/o support:	34 kg

GP Tg vz. 16

STRIBOG AP9 A3

MILITARY PRODUCTION

GP STRIBOG AP9A3 is a select fire submachine gun from world renowned STRIBOG family of products by GRAND POWER. Chambered in 9x19 NATO, this weapon is operated via roller delayed blowback, thus robust and reliable, yet very accurate and controllable even in fully automatic mode. All of the controls are fully ambidextrous, the charging handle orientation can be switched by user with no additional tools.

STRIBOG comes equipped with side folding stock that locks in both positions, telescopic stock and other options are also available on demand.

AP9A3 is highly customizable, namely by picatinny rails and M-LOK slots for installation of sights and other aiming devices, lasers, lights, foregrips etc. Folding backup sights are integrated into upper receiver as standard.

10, 20 and 30 round magazines are available. Muzzle devices, such as suppressors can be installed using 3-lug interface, threaded barrel options are available on demand.

Caliber:	9x19 NATO
Overall lenght w/open folding stock:	664 mm
Overall lenght w/closed folding stock:	400 mm
Height:	204 mm
Width:	57/84 mm
Magazine capacity:	10/20/30 rds
Weight:	2470 g
Barrel lenght:	8"
Firing mode:	closed bolt
Firing system:	roller delyed blowback

STRIBOG AP9 A3

The AP9A3S is the most advanced of our world famous STRIBOG line. Compact and concealable, yet extremely controllable due to low recoiling semi-locked, roller delayed blowback system, which is robust and simple for reliable operation and longevity.

AP9A3S is extremely versatile gun thanks to high degree of modularity and wide range of accessories mounting options. Upper receiver is equipped with M-LOK slots as well as picatinny rails, threaded barrel allows for instalation of muzzle devices, such as factory muzzle brake, or suppressors.

Multiple stock options are available, such as collabsible, folding or even fixed AR-tube base dones if desired.

All measurements are approximate and may be subject to change!

Overall lenght retracted/extended stock, w/o muuzle device:	396/581 mm
Height w/o magazine:	204 mm
Weight w/o magazine:	2250 g (w/muzzle device 2350 g)
Width w/o stock:	57 mm
Barrel lenght:	5,5"
Caliber:	9x19
Magazine capacity:	10/20/30 rds

Magazine capacity:	10/20/30 rds
Barrel lenght:	8"
Firing mode:	closed bolt
Firing system:	direct blowback

STRIBOG AP9 A2

GRAND POWER K100, corner stone of GP production line and first model ever produced is now better than ever in all new Mk23 version!

As all 9mm pistols of our production, the K100 is equipped with rotational barrel, unique design which significantly improves recoil pattern of the gun.

Chambered in standard 9x19 caliber, this pistol boasts state of the art design with pronounced cocking serrations in rear and front for easy manipulation in harsh conditions or with gloves. Red dot ready slide allows for mounting of red dot sight for fast target acquisition, four different pattern mounting plates are included in the package), positive safeties and fully ambidextrous controls.

Polymer handle contains steel internal frame which integrates all moving parts. Pistol comes standard with four backstraps of different shapes and sizes to accommodate all hands.

Wide range of equipment and parts that allow for customization of each pistol are available separately.

GRAND POWER pistols are produced from top quality materials, using state of the art technologies in GP production facilities in Slovakia.

Barrel length:	108 mm
Overall length:	202 mm
Height w/o magazine	133 mm
Width	34 mm
Weight	785 g

GP K100 MK23

GRAND POWER is striker fired full size offering – The Q1, is now in all new Mk23 variant.

As all 9mm pistols of our production, the Q100 is equipped with rotational barrel, unique design which significantly improves recoil pattern of the gun.
